I liked the content and style of the presentation. The instructor was very energetic and excited about the information and made the classroom a true place of learning. Mary is very thoughtful and extremely well prepared. In her strategic consulting work, she spends a good deal of time thinking about her client's issues and challenges way in advance of the event or meetings she may have with them. This allows percolation time and her creativity to emerge into process. She draws people in through her collaborative style, which creates a great deal of buy-in to her approach and building success for a project. She is a great listener and asks a lot of questions. She doesn't miss a detail, even though she's typically working on strategy and very high level issues with executives. She picks up on crucial nuances that the client stresses and she senses their importance. And she is enthusiastic and fun to work with. - *Diane Kuba*

I thank you sincerely for your 100% effort for us, and for what you pulled out of us that afternoon. I look forward to the results, and believe it coalesced am thinking and put the whole Board on the same page...I look forward to working with you again! - Mary Dunne
